THREE SCORE KILLED

BOILER EXPLOSION AT BROCKTON, MASS., WRECKS LARGE SHOE FACTORY.

MANY MEET TERRIBLE DEATH

EMPLOYEES CRUSHED BY HEAVY MACHINERY OR CREMATED IN THE RUINS.

SEVERAL PERSONS MISSING

BELIEVED THAT THEY ALL PERISHED IN DESTRUCTION OF THE BUILDING.

Brockton, Mass., March 21.—This city is in mourning for at least three score of her citizens whose lives were blotted out during the day by the explosion of a boiler in a large shoe manufacturing establishment, conducted by the R. B. Grover company.

The explosion was immediately followed by a flash of flame, which spread and consumed the factory, a long four-story structure, as if it were a house of cards, and incinerated an unknown number of men and women who were unable to extricate themselves from a mass of tangled wreckage formed by the terrible upheaval in the boiler room. More than fifty of the employees in the building were maimed, burned or bruised by the time they reached safe ground. Some had jumped from the roof, some from windows and others had been injured in the mad rush to escape from the doomed factory, which from all parts emitted the intense, awful heat of an inferno, driving back the band of heroic rescuers who in a few brief moments had performed gallant service.

The fire extended from the factory to seven other buildings in the vicinity and destroyed them. Two wooden dwellings near the engine room were practically demolished by the flying boiler. The total financial loss is estimated at \$250,000, \$200,000 of which falls on the R. B. Grover company. The monetary loss is nearly offset by insurance.

Total Number of Dead Unknown.

It may never be known how many persons perished in the wreckage, as no one knows how many persons were in the factory. The number has been estimated at 400, but Treasurer Charles O. Emerson said he doubted whether there were so many at work. Two hundred and fifty survivors have been accounted for and at midnight the remains of fifty bodies had been recovered from the ruins. Fragments of human frames which possibly might belong to bodies other than those enumerated, have also been found. Few of the remains have been identified. The head in nearly every case is missing.

At midnight, a list of missing, numbering twenty-nine, was given out at the police station. It is feared that all were killed, as every effort to locate them has proved futile.

At 2 a. m. the remains of fifty-three persons had been recovered from the ruins.

Chief of Police Boyden expressed the opinion that some of the employees had not reached the factory at the time of the explosion and that undoubtedly a number of those living in nearby places were injured and had gone home without reporting their injuries. He thought that many of those not accounted for, upward of 100 in number, were among these.

The disaster was attended by many harrowing scenes and thrilling rescues. For hours hundreds of the relatives of the factory operatives besieged the ruins and the fire and police stations in quest of missing ones. Some in their violent grief and agonizing stress of mind collapsed.

Several Rescuers Fainted.

Several of the rescuers and searchers fainted as they beheld the distressing scene. There was no trace of the body of David W. Rockwell, engineer of the plant, who was not seen after the explosion. It is supposed that he perished at his post.

An inspection of the wrecked boiler by the state boiler inspectors showed that there was a sufficient supply of water in it.

"A crack in the lap seam of the boiler practically impossible to detect was responsible for the accident," said an expert engineer of the Hartford Steam Inspection and Insurance company.

The boiler being insured and inspected by this company was exempt from inspection by the district police.

The work of identifying those killed by the explosion progressed slowly owing to the generally unrecogniz-

able remains of the victims. The list of identified dead follows:

J. Ray Cole, Harry H. Hall, Jerome A. Mayo, George Smith, Emma B. Pray and Florence A. Dunham.

The explosion, which was followed by such a sacrifice of life and entailing appalling instances of human suffering, occurred shortly after the operatives had settled down to work for the day and without warning. Suddenly the air vibrated with the roar of an explosion. At the same moment

the larger wooden frame building of the factory, a four-story structure, quivered and then the rear portion of it collapsed. In a fraction of a second, this section of the great building had been transformed into a mass of iron and wood wreckage, in the midst of which human beings were pinioned. In another moment fire had broken out in the debris and death by fire and suffocation became the fate of scores of the operatives.

Boiler Killed Many Persons.

When the boiler exploded, it passed upwards almost perpendicular, tearing a passage as it went, killing many on the way. After rising high in the air, it descended half the distance and then swerving northerly, cut its way like some huge projectile through a dwelling house fifty feet away and pierced another dwelling, demolishing the latter structure. Here its course was stopped.

Scenes of horror followed the wrenching apart of the factory building. The upper three floors, weighted as they were with heavy machinery, collapsed with a crash that was heard for blocks. Men and women operatives working in departments of this section who were busy at their machines had time but to turn in an attempt to flee at the first dull roar, when the flooring sank beneath them and they were carried to the ground floor, crushed and bruised amid the mass of debris. Many fell into the veritable fiery furnace. In the section of the factory which remained standing the operatives were panic-stricken, as they sought to escape. Many fled down the stairways and reached the street, others ran to the windows, the fire escapes in many cases having been torn away by the explosion. In desperation many jumped from the second and third-story windows to the ground and were dangerously injured.

Entire Factory Aflame.

The crash on the stairways resulted in numerous minor injuries. Scarcely had the rear portion of the structure collapsed when a tongue of flame started up from the boiler pit and reaching out as it ascended communicated with the splintered wreckage and immediately afterwards with the standing walls. Soon the entire factory was aflame.

Instant death was the fate of many who went down with the floors that collapsed. A large number of men and women who were working near the supports were alive after the floors and walls fell. From these unfortunate cries of agony and terror went up. Almost all had been caught between broken timbers, lighter wooden wreckage and heavy pieces of machinery. A few persons succeeded in extricating themselves from the wreckage, but more were roasted to death.

By this time nearly citizens had arrived to assist the employees who escaped in the rescue of their fellows. This task became momentarily more difficult and perilous, for the heat from the fire was almost unbearable. By the use of long pieces of timbers the rescuers were able to raise parts of the wreckage and thereby release some of the imprisoned men and women and then by rushing into the smoke pull them from the ruins. Then it was that acts of sacrifice and heroism were seen. One man whose legs were caught under an iron beam cried to the rescuers that they could not extricate him and to help the girls behind him.

Dying Man Rescues Girls.

Stretching out his arms he lifted several girls one by one and passed them to the rescuers. Then the fire reached him and he died.

A woman who was entangled in a shoe machine cried out that she was dying and commanded the rescuers to attend to others who might live. She begged to be shot. Soon flames enveloped her.

Among the first to arrive on the scene was Rev. James O'Rourke, curate at St. Margaret's Roman Catholic church, nearby. At the risk of his life he removed seven persons from the ruins before the fire had reached them and was returning for the eighth time when he fainted from the effects of the smoke and shock.

The fire leaped across Calmar street to a three-story brick block at the corner of Main street, and then to a wooden lodging house, a dwelling house on Calmar street, and small buildings, all of which were destroyed.

From the rear of the factory the flames stretched across Denton street to two dwelling houses.

By this time the entire fire department and all the police reserves were on the scene, but with the high wind blowing the flames could not be checked and soon reached two other dwellings. All these buildings were practically ruined, but at this point the fire was stopped.

Not until after noon was it possible to begin a search of the factory ruins.

CASTRO GETS MONEY

PRESIDENT OF VENEZUELA OBTAINS BIG BONUS FOR SETTLING OBLIGATIONS.

CONTRACTS WITH CREDITORS

BRITISH AND GERMAN BONDHOLDERS WILL RECEIVE SOME CUSTOMS RECEIPTS.

Paris, March 21.—General Antonio Belutini, president Castro's fiscal agent at Antwerp, has been authorized to sign a contract with the German and British holders of Venezuelan bonds pledging 50 per cent of the customs receipts of Guanta le Vela, Cumana, Ciudad Bolivar, Porto Colon and Carupano, to pay \$25,000,000, bearing interest at the rate of 4 per cent per annum until the creditor nations are paid from 30 per cent of the customs of La Guayra and Porto Cabello, after which these two ports shall pay 25 per cent of their total receipts to Great Britain and Germany. It is understood that Germany and Great Britain will get a preponderating influence over Venezuela for fifty years and continue their alliance.

It is reported that President Castro receives a gift of \$2,600,000 in consideration of this arrangement.

FRANCE AFTER CASTRO.

He is Notified to Stop Interference With Cable Company.

Washington, March 21.—The French cable complications have reached a crisis and Minister Bowen has informed the state department that the French minister at Caracas, by instructions of his government, has notified the Venezuelan government that there must be no further proceedings on its part of the cancellation of the company's franchise or interference with its property. Further Mr. Bowen reports that two French warships have been ordered post haste to Venezuela to act in accordance with the instructions of the French minister. These are the cruiser Duplex and cruiser Jurien de la Graviere, now in the Caribbean sea.

It is the expectation here that the appearance of these ships at La Guayra will cause President Castro to accede promptly to the demands of the French minister, failing which the minister probably will place the legation in the care of some other minister at Caracas and go aboard one of the warships, thus severing diplomatic relations between France and Venezuela.

Should Venezuela seize the cable office near La Guayra, the French cruisers will retake it by force of arms.

Ten Austrian Miners Killed.

Vienna, March 21.—By an explosion in a colliery at Drenkova, Hungary, ten miners were killed and many others injured.

RUSSIAN VIOLATED PAROLE.

Officer Captured at Sinmintin Committed Breach of Faith.

Washington, March 21.—The following dispatch from Tokio, dated March 20, was made public at the Japanese legation:

"Respecting the capture at Sinmintin by the Japanese garrison of a Russian officer who repaired there in breach of parole, a St. Petersburg semi-official telegraph agency published the excuse to the effect that in returning home from Shanghai to Russia, he took the route by the Chinese railway and therefore the Japanese report is founded on a misunderstanding. As a matter of fact, however, the Russian officers who were liberated upon the surrender of Port Arthur had each and all sworn in writing according to the terms of the capitulation to the effect that they would not act contrary to the interest of Japan. The Japanese government, being convinced that the returning to Russia of such officers through the war zone is detrimental to the military operations, decided that they should not in any case be allowed to take that route and decision was expressly communicated to them at the time. It is therefore clear that the arrival of the Russian officers at Sinmintin, lying within the zone of hostilities, constitutes a breach of the parole."

British Steamer Seized.

Tokio, March 21.—The British steamer Harborton carrying coal to Vladivostok, was seized Saturday by the Japanese.

ROBBERS MAKE A BIG HAUL.

Hold Up a Bank Messenger and Get Ten Thousand Dollars.

Berkeley, Cal., March 21.—J. E. Daly, an Oakland liveryman, who was acting as a messenger for the Central Bank of Oakland, was held up by two men and robbed of \$10,000 in gold, while on his way to the Standard Oil refinery at Point Richmond. The robbers escaped.

NEW SUCCEEDS CORTELYOU.

Indiana Man Becomes Chairman of Republican National Committee.

Washington, March 21.—Postmaster General George Bruce Cortelyou announces that he has appointed Mr. Harry S. New of Indianapolis vice chairman of the Republican national committee and by reason of this appointment Mr. New would become acting chairman on his (Cortelyou's) retirement, which will take place in a very few days. Mr. New's appointment, it is known, is entirely satisfactory to Republican leaders throughout the country, who have been consulted in the matter and have given the selection their approval.

Mr. Cortelyou has appointed Representative Babcock of Wisconsin to be the member of the Republican national committee from Wisconsin.

Cyclone in Pennsylvania.

Uniontown, Pa., March 21.—Two persons were seriously injured as the result of a cyclone which visited Smithfield, nine miles south of here. The house of James Beson was completely destroyed by a storm of wind and hail. Five persons in the house were more or less injured.

MAY HEAD CANAL COMMISSION.

Horace Burt Will Have Charge of Canal Construction.

Washington, March 21.—The Post says Horace G. Burt, formerly president of the Union Pacific, will probably be the new head of the Panama canal commission, in charge of the construction of the great isthmian waterway. His nomination has been seriously considered by Mr. Roosevelt for several days, and it is understood that the offer has already been made, or will be made forthwith. It is part of the plan of reorganization which has been under contemplation.

Will Not Return to the Bench.

New York, March 21.—Former Chief Justice Alton B. Parker of the New York state court of appeals and Democratic candidate for president of the United States in the last election, said during the day that he would not consider any proposition to return to the bench of this state.

Final Hearing in Cody Case.

Sheridan, Wyo., March 21.—The final hearing in the divorce case of W. F. Cody against Louisa F. Cody of North Platte, Neb., began here during the day before Judge R. H. Scott of Cheyenne. A decision is not expected before the latter part of the week.

FRANCE AFTER CASTRO.

He is notified to stop interference with Cable Company.

Washington, March 21.—The French cable complications have reached a crisis and Minister Bowen has informed the state department that the French minister at Caracas, by instructions of his government, has notified the Venezuelan government that there must be no further proceedings on its part of the cancellation of the company's franchise or interference with its property. Further Mr. Bowen reports that two French warships have been ordered post haste to Venezuela to act in accordance with the instructions of the French minister. These are the cruiser Duplex and cruiser Jurien de la Graviere, now in the Caribbean sea.

It is the expectation here that the appearance of these ships at La Guayra will cause President Castro to accede promptly to the demands of the French minister, failing which the minister probably will place the legation in the care of some other minister at Caracas and go aboard one of the warships, thus severing diplomatic relations between France and Venezuela.

Should Venezuela seize the cable of office near La Guayra, the French cruisers will retake it by force of arms.

Ten Austrian Miners Killed.

Vienna, March 21.—By an explosion in a colliery at Drenkova, Hungary, ten miners were killed and many others injured.

RUSSIAN VIOLATED PAROLE.

Officer Captured at Sinmintin Committed Breach of Faith.

Washington, March 21.—The following dispatch from Tokio, dated March 20, was made public at the Japanese legation:

"Respecting the capture at Sinmintin by the Japanese garrison of a Russian officer who repaired there in breach of parole, a St. Petersburg semi-official telegraph agency published the excuse to the effect that in returning home from Shanghai to Russia, he took the route by the Chinese railway and therefore the Japanese report is founded on a misunderstanding. As a matter of fact, however, the Russian officers who were liberated upon the surrender of Port Arthur had each and all sworn in writing according to the terms of the capitulation to the effect that they would not act contrary to the interest of Japan. The Japanese government, being convinced that the returning to Russia of such officers through the war zone is detrimental to the military operations, decided that they should not in any case be allowed to take that route and decision was expressly communicated to them at the time. It is therefore clear that the arrival of the Russian officers at Sinmintin, lying within the zone of hostilities, constitutes a breach of the parole."

British Steamer Seized.

Tokio, March 21.—The British steamer Harborton carrying coal to Vladivostok, was seized Saturday by the Japanese.

ROBBERS MAKE A BIG HAUL.

Hold Up a Bank Messenger and Get Ten Thousand Dollars.

Berkeley, Cal., March 21.—J. E. Daly, an Oakland liverman, who was acting as a messenger for the Central Bank of Oakland, was held up by two men and robbed of \$10,000 in gold, while on his way to the Standard Oil refinery at Point Richmond. The robbers escaped.

NEW SUCCEEDS CORTELYOU.

Indiana Man Becomes Chairman of Republican National Committee.

Washington, March 21.—Postmaster General George Bruce Cortelyou announces that he has appointed Mr. Harry S. New of Indianapolis vice chairman of the Republican national committee and by reason of this appointment Mr. New would become acting chairman on his (Cortelyou's) retirement, which will take place in a very few days. Mr. New's appointment, it is known, is entirely satisfactory to Republican leaders throughout the country, who have been consulted in the matter and have given the selection their approval.

Mr. Cortelyou has appointed Representative Babcock of Wisconsin to be the member of the Republican national committee from Wisconsin.

Cyclone in Pennsylvania.

Uniontown, Pa., March 21.—Two persons were seriously injured as the result of a cyclone which visited Smithfield, nine miles south of here. The house of James Beson was completely destroyed by a storm of wind and hail. Five persons in the house were more or less injured.

MAY HEAD CANAL COMMISSION.

Horace Burt Will Have Charge of Canal Construction.

Washington, March 21.—The Post says Horace G. Burt, formerly president of the Union Pacific, will probably be the new head of the Panama canal commission, in charge of the construction of the great isthmian waterway. His nomination has been seriously considered by Mr. Roosevelt for several days, and it is understood that the offer has already been made, or will be made forthwith. It is part of the plan of reorganization which has been under contemplation.

Will Not Return to the Bench.

New York, March 21.—Former Chief Justice Alton B. Parker of the New York state court of appeals and Democratic candidate for president of the United States in the last election, said during the day that he would not consider any proposition to return to the bench of this state.

Final Hearing in Cody Case.

Sheridan, Wyo., March 21.—The final hearing in the divorce case of W. F. Cody against Louisa F. Cody of North Platte, Neb., began here during the day before Judge R. H. Scott of Cheyenne. A decision is not expected before the latter part of the week.

No. 6 was about an hour late from the west this afternoon. The delay was caused by the derailing of a freight car on No. 60 about four miles this side of Motley. It took some time before the track could be cleared, but little damage was done and no one was hurt.

Work commenced today on the new creamery which will be erected on the vacant lots east of the O'Brien Mercantile company store on Laurel. J. R. Armstrong, who will run the creamery, is here and will supervise the work to a large extent, and being a practical creamery man he will doubtless be able to offer some valuable suggestions.

HOME BURNED LAST NIGHT

Residence of C. M. Andrews on First Avenue N. E. Burned Last Night While Family Was Out.

C. M. Andrews, of Northeast Brainerd is certainly pursued by a demon of hard luck. Mrs. Andrews was sick all last summer, and last fall Mr. Andrews had his chest crushed while at work in the planing mill at the shops and has not been able to do a stroke of work since. The shop boys raised \$80 for him and his family a few months ago and entrusted it to one of their number to deliver. He in turn entrusted it to his wife, who skipped with it, so Mr. Andrews was deprived of that help. Then to cap all his house caught fire last night while the family was out and was completely gutted. The loss would be a heavy one under ordinary circumstances, but in this case it is almost a crushing blow. Mr. Andrews had a small insurance which will cover but a small part of the loss. The family has the sympathy of the entire community.

FOR PLANT AT PRISON

HOUSE BILL WOULD FURNISH FUNDS FOR NEW INDUSTRY AT STILLWATER.

PROVIDES FOR ESTABLISHMENT AT WHICH FARM MACHINERY WILL BE MADE.

St. Paul, March 21.—A bill introduced in the house Monday by Representative John Zelch of Washington will permit the board of control to use one-half the net profits of the state prison at Stillwater towards the installation of a plant for the manufacture of binders and agricultural implements. A resolution authorizing an investigation into the feasibility of establishing such a plant is pending in the house, and if a favorable report comes from the committee the Zelch bill will give the board of control money with which to begin operations. The board of control will have about \$50,000 at its disposal under the terms of the bill.

Local improvements assessments in cities of more than 50,000 inhabitants are made a paramount lien against real estate from the date of the assessment, by a bill introduced by Representative Walter T. Lemon of St. Paul. General taxes of the same or subsequent date and other liens are to be a lien against the real estate in the same order as at present prescribed by law, subject to the paramount claim of the local improvement assessments.

Mr. Lemon also introduced a bill which limits to 6 per cent the interest that may be charged on certificates of sale of real estate for local improvement assessments in cities of more than 50,000 inhabitants unless a lower rate is now prescribed by law. The bill also provides that such certificates of sale may be redeemed before maturity.

Monument for Indians' Victims.

The re-interment and a monument for eighteen victims of the Indian outbreak of 1862, murdered near the shores of Lake Shetek, Murray county, is provided for by a bill introduced by Representative S. O. Morse of Slayton.

The bill recites the facts of the massacre, and says the bodies were slightly covered with earth on the prairie from Aug. 20 to Oct., 1862, when they were interred by soldiers on private ground. The measure appropriates \$500 for re-interment and a monument. The following bills were introduced in the house:

H. F. No. 665—By Fosseen—Making it a felony to convey land in which a person has no interest.

H. F. No. 672—By Johnson—A method of procedure for detaching territory from one county and attaching it to another. Towns and counties.

H. F. No. 673—By Johnson—Providing for the establishment of county schools of agriculture. Placed on general orders.

H. F. No. 674—By Rachle—Imposing a 4 per cent gross earnings tax on freight line companies. Taxes.

Bills passed by the house:

H. F. No. 386—By Hetland—Fixing a minimum rate of speed for the transportation of live stock by railroads.

H. F. No. 448—By Public Lands Committee—Defining and prescribing penalties for trespasses on state lands.

S. F. No. 119—By Collier—Prohibiting officers and employees of villages or cities from receiving fees as witnesses.

S. F. No. 100—By Stephens—Relating to the rights of boom companies.

The Colonel's Waterloo.

Colonel John M. Fuller, of Honey Grove, Tex., nearly met his Waterloo, from Liver and Kidney trouble. Miss Anna McGrath is expected in the city tomorrow for a visit with her aunt, Miss Russell, of East Brainerd.

Mrs. P. Headwell leaves tomorrow for Chicago where her husband has secured a position with the Hines Lumber Co.

Mrs. C. F. Mitchell, of Mazomaie, Wis., arrived in the city this morning for a visit with her son, G. F. Mitchell.

B. B. Teasdale, of the American Grass Twine Co., will go to the St. Joseph's hospital today where he will be operated on.

Miss Mildred Duffy, of Gerling, left for her home this afternoon after attending the funeral of the late T. H. Murphy.

The Ladies' Aid society of the Presbyterian church will meet with Mrs. A. Purdy, South Seventh street tomorrow afternoon.

Several well known ladies of the city will go to Minneapolis the last of the week to be present during the grand opera season.

There will be a shop meeting under the auspices of the Y. M. C. A. tomorrow noon. All men are invited. Rev. H. W. Knowles will speak.

Mr. and Mrs. John Muenster and Miss Edith Muenster, of Winona, arrived in the city this afternoon for a visit with Mr. and Mrs. William Hass.

The old debris about the old Arlington hotel site is being removed and the holes filled up. The place will be leveled off and seeded to grass as soon as spring arrives.

Word from William Wood, who is at the Shakespeare Mine states that at the 150 foot level he put everything taken out into the stamp mill and that it averaged \$22 to the ton.

W. R. Clark returned this morning from Panama. "Scotty" is considerably disgusted with the isthmus and has promised The Dispatch an interview on conditions there.

The Evangelistic meetings in the Mill district will be continued each evening this week. Rev. J. O. Ferris will preach this evening. Song service begins at 7:30. The public is invited.

Mrs. W. H. Sadler and son Will left this noon for Brookhaven, Miss., where Mr. Sadler has been the past few months as sawyer in a big mill. Many friends in the city regret to see the family leave Brainerd.

No. 6 was about an hour late from the west this afternoon. The delay was caused by the derauling of a freight car on No. 60 about four miles this side of Motley. It took some time before the track could be cleared, but little damage was done and no one was hurt.

Work commenced today on the new creamery which will be erected on the vacant lots east of the O'Brien Mercantile company store on Laurel. J. R. Armstrong, who will run the creamery, is here and will supervise the work to a large extent, and being a practical creamery man he will doubtless be able to offer some valuable suggestions.

HOME BURNED LAST NIGHT

Residence of C. M. Andrews on First Avenue N. E. Burned Last Night While Family Was Out.

C. M. Andrews, of Northeast Brainerd is certainly pursued by a demon of hard luck. Mrs. Andrews was sick all last summer, and last fall Mr. Andrews had his chest crushed while at work in the planing mill at the shops and has not been able to do a stroke of work since. The shop boys raised \$80 for him and his family a few months ago and entrusted it to one of their number to deliver. He in turn entrusted it to his wife, who skipped with it, so Mr. Andrews was deprived of that help. Then to cap all his house caught fire last night while the family was out and was completely gutted. The loss would be a heavy one under ordinary circumstances, but in this case it is almost a crushing blow. Mr. Andrews had a small insurance which will cover but a small part of the loss. The family has the sympathy of the entire community.

FOR PLANT AT PRISON

HOUSE BILL WOULD FURNISH

FUNDS FOR NEW INDUSTRY

AT STILLWATER.

PROVIDES FOR ESTABLISHMENT

AT WHICH FARM MACHIN-

ERY WILL BE MADE.

St. Paul, March 21.—A bill introduced in the house Monday by Representative John Zelch of Washington will permit the board of control to use one-half the net profits of the state prison at Stillwater towards the installation of a plant for the manufacture of binders and agricultural implements. A resolution authorizing an investigation into the feasibility of establishing such a plant is pending in the house, and if a favorable report comes from the committee the Zelch bill will give the board of control money with which to begin operations. The board of control will have about \$60,000 at its disposal under the terms of the bill.

Local improvements assessments in cities of more than 50,000 inhabitants are made a paramount lien against real estate from the date of the assessment, by a bill introduced by Representative Walter T. Lemon of St. Paul. General taxes of the same or subsequent date and other liens are to be a lien against the real estate in the same order as at present prescribed by law, subject to the paramount claim of the local improvement assessments.

Mr. Lemon also introduced a bill which limits to 6 per cent the interest that may be charged on certificates of sale of real estate for local improvement assessments in cities of more than 50,000 inhabitants unless a lower rate is now prescribed by law. The bill also provides that such certificates of sale may be redeemed before maturity.

Monument for Indians' Victims.

The reinterment and a monument for eighteen victims of the Indian outbreak of 1862, murdered near the shores of Lake Shetek, Murray county, is provided for by a bill introduced by Representative S. O. Morse of Slayton.

The bill recites the facts of the massacre, and says the bodies were slightly covered with earth on the prairie from Aug. 20 to Oct., 1862, when they were interred by soldiers on private ground. The measure appropriates \$500 for reinterment and a monument.

The following bills were introduced in the house:

H. F. No. 665—By Fosseen—Making it a felony to convey land in which a person has no interest.

H. F. No. 672—By Johnson—A method of procedure for detaching territory from one county and attaching it to another. Towns and counties.

H. F. No. 673—By Johnson—Providing for the establishment of county schools of agriculture. Placed on general orders.

H. F. No. 674—By Rachie—Imposing a 4 per cent gross earnings tax on freight line companies. Taxes.

Bills passed by the house:

H. F. No. 386—By Hetland—Fixing a minimum rate of speed for the transportation of live stock by railroads.

H. F. No. 448—By Public Lands Committee—Defining and prescribing penalties for trespasses on state lands.

S. F. No. 119—By Collier—Prohibiting officers and employees of villages or cities from receiving fees as witnesses.

S. F. No. 100—By Stephens—Relating to the rights of boom companies.

COUNCIL WILL ELECT THE CHIEF

Ordinance Vesting Council With
Authority to Elect Fire Chief
Passed Last Nigght

TRIBUTE TO LATE T. H. MURPHY

Resolution of Condolence Offered
by President Johnson Was
Unanimously Passed

A meeting of the city council was
held last night and President C. D. John-
son was in the chair. The following alder-
men were present: Halladay, Peter-
son, Opsahl, Armstrong, Baker, Farrar
and Miller.

The chair left vacant by the death of
Alderman Thos. H. Murphy was draped
in mourning.

The report of City Clerk Low on
finances showed receipts during the
month of \$2,025.11 and expenditures
\$1,991.75. On motion the report was re-
ferred to the finance committee.

Chairman Farrar, of the purchasing
committee, reported having bought the
meters required.

THE NEW FIRE TEAM.

Chairman Armstrong, of the fire com-
mittee, reported that the fire team had
been purchased, and a guarantee was
read from Barrett & Zimmerman, from
whom the team was purchased. He
stated that one of them had been "off
feed" since he arrived in Brainerd but
Dr. McDonald reported there was nothing
serious. Alderman Armstrong said
the ages of the horses were represented
at 6 and 7 years of age, but Alderman
Halladay ventured the remark that one
of them would never see 10 years again.
The price stipulated was \$450.

It was generally conceded that one of
the horses would have to be sent back,
but the other horse, it is thought, will
fill the bill.

It was decided to correspond with
Barrett & Zimmerman and see if they
could furnish a horse to mate the one
that has been tried.

Alderman Halladay repeated his re-
quest to have the Kindred street bridge
replanked at some points, and also
moved that the street commissioner be
instructed to inspect all the sidewalks
in the city as soon as the work of crush-
ing rock is completed, and that he also
be instructed to make the necessary re-
pairs. The motion received a second
and carried.

COUNCIL TO ELECT CHIEF.

The newly drafted ordinance vesting
the city council with the power to elect
the chief of the fire department came up
last night for consideration.

To bring the matter before the body
Alderman Farrar moved the ordinance
be placed on its first reading. The mo-
tion carried and the ordinance received
its first reading. Alderman Farrar then
moved that the rules be suspended and
the ordinance be placed on its second
reading.

Alderman Peterson last night did not
object to the ordinance as a whole, but
asked that the 2 assistants be named
from the two companies not represented
by the chief, in other words, that the
chief be from one company and the first
and second assistants be named from the
other companies. The ordinance as
read specified that the chief be elected
at the first meeting in April, that the
first assistant be named by the chief
and that the second assistant be elected
by a plurality of all the members of the
three companies.

The ordinance was finally adopted as
read, all members supporting the mo-
tion.

The liquor license application of Bet-
zold & Hughes was received. The bond
was approved and on motion the licen-
se was granted. The same action was tak-
en in reference to M. Nelson's applica-
tion.

The request of a Mr. Thompson that a
part of the Gull lake road crossing his
lots in West Brainerd be vacated, was
referred to the street committee in con-
junction with the city attorney.

The bids for the old fire team were
opened last night. P. Wickland had a
bid in for \$175 for the team and Gilmer
& Welch offered \$225. On motion the
bids were laid on the table until the
next meeting.

THE WATER WORKS MATTER.

Alderman Halladay referred to the
writup in THE DISPATCH of the "Com-
mercial Club proceedings wherein it was
stated that Senator Frater had decided
to give Ambrose Tighe a hearing on the
water works bill. At this point it was
stated that a committee from the Com-
mercial Club would be present to talk
the matter over.

Alderman Halladay wanted to know
what right Ambrose Tighe had to ask
that the bill be held up. Chairman
Hemstead, of the legislative committee
of the Commercial Club, came in at this
point and stated that the club had re-
ceived from Senator Frater the changes
which Mr. Tighe has asked in the water
works bill. The club thought that they
would accede but one point to Mr.
Tighe and that was in the inserting of the
clause "or acquire the water works plant
by condemnation proceedings" after the
words "may purchase" in the first part
of the bill.

Alderman Halladay was not in favor
of conceding one thing to Mr. Tighe and
moved that Senator Frater be asked to
use all honorable means to pass the bill
as originally drafted. The motion re-
ceived a second, but an amendment was
made by Alderman Opsahl that the
words "or acquire by condemnation pro-
ceedings" be added. There was a tie
vote on both the amendments and the
original motion and Mayor O'Brien, who
was present, was asked to vote. He
voted in favor of the amendment and the
original motion as amended was also
carried by his vote, so that the bill will
be sent to Mr. Frater with this one
change.

DEATH OF ALDERMAN MURPHY.

President Johnson turned the gavel
over to Vice President A. M. Opsahl at
this point and said:

Mr. President and Gentlemen:

"I desire at this time to announce that
since our last meeting this body has suf-
fered the loss of one of our members.
On Thursday evening of last week Al-
derman Murphy died. As an official he
was conscientious honest in his endeavor
to do that which he deemed best for
his constituents. My observation of
Alderman Murphy prompts me to be-
lieve that he was a man of pure motives;
and I am free to say that I applaud the
motive and good intention of men rather
than look with admiration upon the
towering ability of a man. I therefore
offer this resolution:

"Resolved, that this council learns
with regret of the death of Alderman
Thos. H. Murphy.

"Resolved, that in the death of Mr.
Murphy this council loses a faithful
member and the city an esteemed citi-
zen. As his associates in this council
we deeply feel the loss of his presence,
we sorrow in his death and extend our
sympathy to the family of our late
brother alderman."

The resolution was unanimously ad-
opted.

WERE STEEPED

WITH FILTH

Sheriff Hardy Returns from Little
Thunder Country With Two
Young Girls

TAKEN FROM THEIR PARENTS

Will Be Taken to Training School
at Owatonna to Be Kept
By the State.

Steeped in filth with all the ideas of
modern civilization as obscure as a Rus-
sian victory, there dwells a family in
the Little Thunder country by the name
of Mellen, whose circles were invaded
yesterday by Sheriff George S. Hardy,
and two little girls with sparkling blue
eyes, ages 11 and 15 years, were taken
into custody and brought to this city
this morning.

Complaints against the family were
made by the officer of some humane so-
ciety and the situation as described by
Sheriff Hardy is most appalling. James
Mellen and wife and the two little girls,
Josie and Jennie, lived in an old camp
which was so filthy and dirty and so de-
void of the actual necessities of life that
in approaching the officer felt more as
though he was entering a den of canib-
als rather than a home where dwelt
people of average intelligence. The lit-
tle girls would not be taken for the same
children after they were washed and
Sheriff Hardy stated that the skin on
the forehead of one little girl actually
peeled off when she was washed.

The little girls were taken to Walker
this afternoon and from there they will
be sent to the state training school at
Owatonna.

If you want your little ones strong,
healthy and robust, give them Hollis-
ter's Rocky Mountain Tea this month.

LOOKING UP PLAYERS

Manager M. J. Reilly, of the St. Cloud-

Brainerd Team Left for St. Paul To-
day for a Few Days.

Manager M. J. Reilly, of the St. Cloud-
Brainerd team, left this afternoon for
St. Paul where he expects to meet A. C.
White, who is a candidate for the po-
sition of playing manager of the team.
White is highly recommended and it is
not unlikely that a deal will be closed
with him.

While in St. Paul Manager Reilly will
rub up against some of the big guns.
He will see Manager Mike Kelley, of the
St. Paul team, and will also go over and
have a talk with Manager Watkins of
the Minneapolis team. He will feel
around for players that will perhaps be
farmed out from these two cities.

Mr. Reilly has a line on a large num-
ber of good players. He says that he
will have a particularly strong pitching
staff, as he has several on the string who
would like to sign, one being a twirler
from Ann Arbor, Mich., a gentleman
well known to Pat V. Boyle, of this city.
When Mr. Reilly returns from the cities
there will be more valuable information
to be given out.

It is understood that Mike Skanter,
of St. Cloud, who played in the copper
country last year, will be signed and
that Pat Boyle, of this city, will be in
uniform. Both boys are well known
and it is the belief that they will make
good.

MURRAY FAREWELL PARTY

W. W. Murray Transfers to the Rock
Island and is Tendered a Farewell

Party at Baker's Hall Last Night

The machinists and boilermakers
united in giving a farewell party last
night at Baker's hall to W. W. Murray,
who has resigned his position as general
foreman of the Northern Pacific shops
to become assistant superintendent of
the Rock Island system at Moline,
Ill. The large gathering present cer-
tainly attested the high regard in which
the men of the shops hold Mr. Murray.

A short program was first given con-
sisting of cornet selections by J. Theri-
ault, song and recitation by Albert F.
Hoppe, mandolin solos by George J.
Boucke and George W. Bislar, songs by
Richard Isle, Joe Murphy and Edward
Pressen, concluding with a recitation by
W. Holder. Louis Hohman played the
accompaniments for the various selec-
tions. The program was greatly enjoyed,
all numbers being greeted with
hearty applause. F. C. Larrison made
a short address, relating several witty
stories, and then led up to the purpose
of the meeting, expressing the regret of
the many present at the departure of
Mr. Murray whose uniform courtesy
and kindness all had appreciated, and
ending by wishing him the greatest pos-
sible measure of success and advance-
ment in his new field.

A fine supper was served by the com-
mittee having this feature in charge,
and the skill and exactness of the ma-
chinists in arranging the table decora-
tions, pints of beer flanked with bottles
of softer drinks was something that had
to be seen to be appreciated. Knowing
the tastes of Jack McKay, the com-
mittee relieved him of his embarrassment
in finding something cold to drink, by
presenting him with a two quart bottle
of milk and a can of condensed milk.

After the cigars circulated Mr. Mur-
ray was called on, and in well chosen
words thanked all present for the cour-
tesy shown him and said he was sorry
to leave so many friends, but would al-
ways retain the most pleasant recollec-
tions of Brainerd.

Other speakers followed, Mr. Blake
making a hit by telling the experience
of the green policeman and the minstrel
show. G. F. Mitchell spoke in graver
vein, reciting appropriate poetry. Ed-
ward Crust spoke of the serious makeup
of his own character, of being able to
enjoy jokes but difficult for him to spring
them, and then proceeded in a very or-
iginal and humorous way to speak of
the various shop departments and the
characteristics of their men and fore-
men. Some of those present learned to
their surprise that Joseph Kiebler was
a veteran of the bloody Blueberry war.
J. P. Anderson added a testimonial to
the managing ability of Mr. Murray,
and expressed regret in Brainerd's loss.
He spoke of conditions in the shops and
improvements contemplated. W. Sal-
mon told a story which brought tears to
the eyes of his listeners. James C.
Davis gave an exhaustive sermon on
deacons. P. C. Larrison concluded
with good stories regarding the troubles
of a Mason. The evening was one of
great enjoyment and was certainly a
huge success.

It would have been incredible brutal-
ity if Chas. F. Lemberger, of Syracuse,

I applied Bucklen's Arnica Salve,
which quickly healed it and saved his
eye. Good for burns and ulcers too.

The Raincoat of Today.

Once it was an oilskin, shapeless and
bulky, worn by seafarers and men whose
vocations brought them in daily contact
with the elements. Later on it was a
sheet of rubber, heavy, stiff and un-
wieldy, bearing iron riveted buttons and
little better than a horse blanket.

Today it is a stylish, soft, shapely gar-
ment as graceful as any article in a
man's wardrobe and the most useful
garment he can possess. It has taste,
refinement and character—it is porous
and admits the air, yet nothing short of
pressure can force the dampness through
it.

Such is the evolution of the raincoat.
Such is the watershed of The House of
Kuppenheimer.

I have this coat in many styles. This
is the weather for it.

ALSO PURIFIES THE BLOOD.

Don't become discouraged. There is a cure for you. If necessary write Dr. Fenner.
He has spent a lifetime curing just such cases as yours. All consultations FREE.

Lo-Co-Moter Ataxia. Now in Good Health.

Dr. M. M. Fenner, Fredonia, N. Y.

Dear Sir:—After a sickness of more
than five years, I was tempted to try your
Kidney and Backache Cure. In the
mean time I had tried or been under about 20
doctors' care at the beginning of my trouble.
It was thought to be only a local one, but as
time wore on I became worse, so that at last I
could not stand on my feet. Then my
arms and hands became useless.

But at last after a very long time the use of
both came back to me so that I could walk a
little with the aid of crutches. The Doctors
helped me to this point and no further, and for
24 years I kept in the same condition.

Through the use of your Kidney and
Backache Cure I am now in good health.
Will say, the doctors told me—all of them—
that there was no cure for me, because I was
then suffering from Lo-Co-Moter Ataxia.

I Remain yours Respectfully,

COUNCIL WILL ELECT THE CHIEF

Ordinance Vesting Council With
Authority to Elect Fire Chief
Passed Last Night

TRIBUTE TO LATE T. H. MURPHY

Resolution of Condolence Offered
by President Johnson Was
Unanimously Passed

A meeting of the city council was held last night and President C. D. Johnson was in the chair. The following aldermen were present: Halladay, Peterson, Opsahl, Armstrong, Baker, Farrar and Miller.

The chair left vacant by the death of Alderman Thos. H. Murphy was draped in mourning.

The report of City Clerk Low on finances showed receipts during the month of \$2,625.11 and expenditures \$1,991.75. On motion the report was referred to the finance committee.

Chairman Farrar, of the purchasing committee, reported having bought the meters required.

THE NEW FIRE TEAM.

Chairman Armstrong, of the fire committee, reported that the fire team had been purchased, and a guarantee was read from Barrett & Zimmerman, from whom the team was purchased. He stated that one of them had been "off feed" since he arrived in Brainerd but Dr. McDonald reported there was nothing serious. Alderman Armstrong said the ages of the horses were represented at 6 and 7 years of age, but Alderman Halladay ventured the remark that one of them would never see 10 years again. The price stipulated was \$450.

It was generally conceded that one of the horses would have to be sent back, but the other horse, it is thought, will fill the bill.

It was decided to correspond with Barrett & Zimmerman and see if they could furnish a horse to mate the one that has been tried.

Alderman Halladay repeated his request to have the Kindred street bridge replanked at some points, and also moved that the street commissioner be instructed to inspect all the sidewalks in the city as soon as the work of crushing rock is completed, and that he also be instructed to make the necessary repairs. The motion received a second and carried.

COUNCIL TO ELECT CHIEF.

The newly drafted ordinance vesting the city council with the power to elect the chief of the fire department came up again last night for consideration.

To bring the matter before the body Alderman Farrar moved the ordinance be placed on its first reading. The motion carried and the ordinance received its first reading. Alderman Farrar then moved that the rules be suspended and the ordinance be placed on its second reading.

Alderman Peterson last night did not object to the ordinance as a whole, but asked that the 2 assistants be named from the two companies not represented by the chief, in other words, that the chief be from one company and the first and second assistants be named from the other companies. The ordinance as read specified that the chief be elected at the first meeting in April, that the first assistant be named by the chief and that the second assistant be elected by a plurality of all the members of the three companies.

The ordinance was finally adopted as read, all members supporting the motion.

The liquor license application of Betzold & Hughes was received. The bond was approved and on motion the license was granted. The same action was taken in reference to M. Nelson's application.

The request of a Mr. Thompson that a part of the Gull lake road crossing his lots in West Brainerd be vacated, was referred to the street committee in conjunction with the city attorney.

The bids for the old fire team were opened last night. P. Wickland had a bid in for \$175 for the team and Gilmer & Welch offered \$225. On motion the bids were laid on the table until the next meeting.

THE WATER WORKS MATTER.

Alderman Halladay referred to the writup in THE DISPATCH of the Commercial Club proceedings wherein it was stated that Senator Frater had decided to give Ambrose Tighe a hearing on the water works bill. At this point it was stated that a committee from the Commercial Club would be present to talk the matter over.

Alderman Halladay wanted to know what right Ambrose Tighe had to ask that the bill be held up. Chairman Hemstead, of the legislative committee of the Commercial Club, came in at this point and stated that the club had received from Senator Frater the changes which Mr. Tighe has asked in the water works bill. The club thought that they would accede but one point to Mr. Tighe and that was in the inserting of the clause "or acquire the water works plant by condemnation proceedings" after the words "may purchase" in the first part of the bill.

Alderman Halladay was not in favor of conceding one thing to Mr. Tighe and moved that Senator Frater be asked to use all honorable means to pass the bill as originally drafted. The motion received a second, but an amendment was made by Alderman Opsahl that the words "or acquire by condemnation proceedings" be added. There was a tie vote on both the amendments and the original motion and Mayor O'Brien, who was present, was asked to vote. He voted in favor of the amendment and the original motion as amended was also carried by his vote, so that the bill will be sent to Mr. Frater with this one change.

DEATH OF ALDERMAN MURPHY.

President Johnson turned the gavel over to Vice President A. M. Opsahl at this point and said:

Mr. President and Gentlemen:

"I desire at this time to announce that since our last meeting this body has suffered the loss of one of our members. On Thursday evening of last week Alderman Murphy died. As an official he was conscientious honest in his endeavor to do that which he deemed best for his constituents. My observation of Alderman Murphy prompts me to believe that he was a man of pure motives; and I am free to say that I applaud the motive and good intention of men rather than look with admiration upon the towering ability of a man. I therefore offer this resolution:

"Resolved, that this council learns with regret of the death of Alderman Thos. H. Murphy.

"Resolved, that in the death of Mr. Murphy this council loses a faithful member and the city an esteemed citizen. As his associates in this council we deeply feel the loss of his presence, we sorrow in his death and extend our sympathy to the family of our late brother alderman."

The resolution was unanimously adopted.

WERE STEEPED WITH FILTH

Sheriff Hardy Returns from Little
Thunder Country With Two
Young Girls

TAKEN FROM THEIR PARENTS

Will Be Taken to Training School
at Owatonna to Be Kept
By the State.

Steeped in filth with all the ideas of modern civilization as obscure as a Russian victory, there dwells a family in the Little Thunder country by the name of Mellen, whose circles were invaded yesterday by Sheriff George S. Hardy, and two little girls with sparkling blue eyes, ages 11 and 15 years, were taken into custody and brought to this city this morning.

Complaints against the family were made by the officer of some humane society and the situation as described by Sheriff Hardy is most appalling. James Mellen and wife and the two little girls, Josie and Jennie, lived in an old camp which was so filthy and dirty and so devoid of the actual necessities of life that in approaching the officer felt more as though he was entering a den of cannibals rather than a home where dwelt people of average intelligence. The little girls would not be taken for the same children after they were washed and Sheriff Hardy stated that the skin on the forehead of one little girl actually peeled off when she was washed.

The little girls were taken to Walker this afternoon and from there they will be sent to the state training school at Owatonna.

If you want your little ones strong, healthy and robust, give them Hollister's Rocky Mountain Tea this month. A tonic for the whole family. The children's friend. 35 cents, tea or tablets. H. P. Dunn & Co.

LOOKING UP PLAYERS

Manager M. J. Reilly, of the St. Cloud.

Brainerd Team Left for St. Paul To-day for a Few Days.

Manager M. J. Reilly, of the St. Cloud-Brainerd team, left this afternoon for St. Paul where he expects to meet A. C. White, who is a candidate for the position of playing manager of the team. White is highly recommended and it is not unlikely that a deal will be closed with him.

While in St. Paul Manager Reilly will rub up against some of the big guns. He will see Manager Mike Kelley, of the St. Paul team, and will also go over and have a talk with Manager Watkins of the Minneapolis team. He will feel around for players that will perhaps be farmed out from these two cities.

Mr. Reilly has a line on a large number of good players. He says that he will have a particularly strong pitching staff, as he has several on the string who would like to sign, one being a twirler from Ann Arbor, Mich., a gentleman well known to Pat V. Boyle, of this city. When Mr. Reilly returns from the cities there will be more valuable information to be given out.

It is understood that Mike Skanter, of St. Cloud, who played in the copper country last year, will be signed and that Pat Boyle, of this city, will be in uniform. Both boys are well known and it is the belief that they will make good.

MURRAY FAREWELL PARTY

W. W. Murray Transfers to the Rock Island and is Tendered a Farewell

Party at Baker's Hall Last Night

The machinists and boilermakers united in giving a farewell party last night at Baker's hall to W. W. Murray, who has resigned his position as general foreman of the Northern Pacific shops to become assistant superintendent of the Rock Island system at Moline, Ill. The large gathering present certainly attested the high regard in which the men of the shops hold Mr. Murray.

A short program was first given consisting of cornet selections by J. Theriault, song and recitation by Albert F. Hoppe, mandolin solos by George J. Boucke and George W. Bislar, songs by Richard Isle, Joe Murphy and Edward Pressen, concluding with a recitation by W. Holder. Louis Hohman played the accompaniments for the various selections. The program was greatly enjoyed, all numbers being greeted with hearty applause. F. C. Larrison made a short address, relating several witty stories, and then led up to the purpose of the meeting, expressing the regret of the many present at the departure of Mr. Murray whose uniform courtesy and kindness all had appreciated, and ending by wishing him the greatest possible measure of success and advancement in his new field.

A fine supper was served by the committee having this feature in charge, and the skill and exactness of the machinists in arranging the table decorations, pints of beer flanked with bottles of softer drinks was something that had to be seen to be appreciated. Knowing the tastes of Jack McKay, the committee relieved him of his embarrassment in finding something cold to drink, by presenting him with a two quart bottle of milk and a can of condensed milk.

After the cigars circulated Mr. Murray was called on, and in well chosen words thanked all present for the courtesy shown him and said he was sorry to leave so many friends, but would always retain the most pleasant recollections of Brainerd.

Other speakers followed, Mr. Blake making a hit by telling the experience of the green policeman and the minstrel show. G. F. Mitchell spoke in graver vein, reciting appropriate poetry. Edward Crust spoke of the serious makeup of his own character, of being able to enjoy jokes but difficult for him to spring them, and then proceeded in a very original and humorous way to speak of the various shop departments and the characteristics of their men and foremen. Some of those present learned to their surprise that Joseph Kiebler was a veteran of the bloody Blueberry war. J. P. Anderson added a testimonial to the managing ability of Mr. Murray, and expressed regret in Brainerd's loss. He spoke of conditions in the shops and improvements contemplated. W. Salmon told a story which brought tears to the eyes of his listeners. James C. Davis gave an exhaustive sermon on deacons. P. C. Larrison concluded with good stories regarding the troubles of a Mason. The evening was one of great enjoyment and was certainly a huge success.

Incredible Brutality.

It would have been incredible brutality if Chas. F. Lemberger, of Syracuse, N. Y., had not done the best he could for his suffering son. "My Boy," he says, "cut a fearful gash over his eye, so I applied Bucklen's Arnica Salve, which quickly healed it and saved his eye. Good for burns and ulcers too. Only 25c at H. P. Dunn & Co. drug store.

The Raincoat of Today.

Once it was an oilskin, shapeless and bulky, worn by seafarers and men whose vocations brought them in daily contact with the elements. Later on it was a sheet of rubber, heavy, stiff and unwieldy, bearing iron riveted buttons and little better than a horse blanket.

Today it is a stylish, soft, shapely garment as graceful as any article in a man's wardrobe and the most useful garment he can possess. It has taste, refinement and character—it is porous and admits the air, yet nothing short of pressure can force the dampness through it.

Such is the evolution of the raincoat. Such is the watershed of The House of Kuppenheimer.

I have this coat in many styles. This is the weather for it.

Paine's Celery Compound Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living,—is the right of every man and woman born into the world. Health is a question of keeping all the organs of the body working together in fine, smooth, harmony. The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force. Without Nerve Force there can be no health at all—no success—no joy in living. The center of life is in the nerves. The real root of health or sickness is found in the condition of the nerves. Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health. This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room. It makes the heart beat true and evenly, it makes the brain clear and vigorous. The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force. Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success. This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world. We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,"—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice. Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once. The patient feels this at once and gains confidence by it. The Nerve Force begins at once to make each organ of the body do the work that nature expects of it. Two days' treatment with Paine's Celery Compound will prove its marvelous power. Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

PEACE NEGOTIATIONS

MAY BE INFLUENCED BY DECISION OF RUSSIA TO CARRY ON THE CONFLICT.

FORCES STILL RETREATING

RUSSIAN RETIREMENT TO HARBIN IS BEING CONDUCTED UNEVENTFULLY.

St. Petersburg, March 21.—The council of war met during the day with General Dragomiroff in the chair. It was decided to continue the campaign and to order a new mobilization. According to trustworthy information, the decision was based rather on diplomatic than on military considerations; that is to say, it was preparatory to negotiations for peace rather than a continuation of the war.

FORCES IN RETREAT

RUSSIANS CONDUCTING AN UNEVENTFUL RETIREMENT TO THE NORTH.

St. Petersburg, March 21.—The latest dispatches from Manchuria indicate that the retreat of the Russian army is being conducted uneventfully. The past few days were unmarked by any fighting of a serious nature. Both the Russians and the Japanese at this stage are probably considering that marching is more important than fighting. The Russians, however, are neglecting no precaution to impede pursuit and hamper the construction of permanent Japanese lines of supply. A dispatch received Monday announcing that a cannonade had been heard south of Tie pass is apparently an error either as to direction or location.

M. Tuluzakoff, an Associated Press correspondent who had been accompanying General Rennenkampf's corps of the Eastern army, and whose dispatches suddenly ceased with the beginning of the retreat, has arrived at Gunshu pass, having been wounded in the early stage of the retirement.

According to an Associated Press dispatch from Gunshu pass the appointment of General Linevitch has made a good impression with the army, the new commander enjoying the affection and confidence of the troops almost in the same measure as General Kuropatkin. Both are fighters and not carpet knights.

UTTERLY WITHOUT INCIDENT.

Russian Retreat Unmarked by Any Great Event.

Gunshu Pass, March 21.—The past few days have been utterly without incident except for the removal of the censor to Kudzhuh pass. The Russian rear guard is retreating slowly and engaging in occasional skirmishes. It has now reached a position twenty-seven miles north of Tie pass. The Japanese are slowly advancing, without pressing the Russians. In the course of the retreat the Russians are destroying bridges, the railway roadbed and highways and carrying off stores and demolishing buildings and everything not portable. Reports of a wide turning movement by the Japanese are no longer being received.

There is increasing difficulty in securing reliable information beyond the limits within which scouting parties

are active, on account of the defection of many Chinese to the Japanese side. Many natives who have been employed as servants by Russian officers have run away, and other consequences of the evacuation of Mukden are noticeable in the attitude of the Chinese.

The troops parted in sadness with General Kuropatkin, whose labors in shaping the army are recognized and who was ever attentive to the wants of the soldiers in the matter of food, clothing and shelter. Regardless of the fact that he had been commander-in-chief, General Kuropatkin offered to remain here as a subordinate of General Linevitch, and as commander of a corps.

General Linevitch, who also enjoys the respect and confidence of the troops as a fighter, is determined to initiate reform by weeding out the overloaded staff and other administrative departments, and is taking other steps which, it is believed, will result in economy as well as increasing the efficiency of the army.

JAPS OCCUPY KAIYUAN.

Russian Attempt to Retake Position Is Frustrated.

Tokio, March 21.—The following official announcement has been made:

"Our detachment entered and occupied Kaiyuan Sunday morning at 4 o'clock. On the same day, at 10:30 o'clock, the enemy's cavalry, about sixty strong, with three companies of infantry, attempted a counter attack, but was completely repulsed. Toward the northeast the bridges on the main road south of Kaiyuan have been burned by the enemy. The railway bridges have been partly destroyed. "The number of guns captured near Mukden is increasing, owing to discoveries of those buried by the enemy before retreating."

RUSSIAN GOVERNOR AT VIBORG WOUNDED BY A YOUTHFUL REVOLUTIONIST.

Viborg, European Russia, March 21.—Governor Misadoroff was shot and seriously wounded during the day by a boy named Matti Hjalmar Reinikka. The assassin, who is about fifteen years of age, obtained an entrance to the governor's office and fired three times at him, one bullet inflicting a serious wound and the others slightly wounding the governor's legs. The governor's clerks and secretary were unable to stop the would-be assassin, who reached the street, where, however, he was arrested without a struggle. The governor's condition is critical.

Reinikka admits that he is a revolutionist. He hails from the northwestern part of Finland, but recently has been living in Stockholm to avoid arrest on account of his known revolutionary ideas. He returned four days ago to Finland by way of Tornea, and spent three days in Viborg, but declines to reveal his stopping place.

Governor Misadoroff has been most energetic in the Russification of Finland, and memorials have been sent to the estates petitioning for his removal on account of his alleged illegal methods and the general conditions in his province, which were pronounced to be intolerable.

At 3 o'clock in the afternoon Reinikka gained access to the governor's cabinet and fired a shot from the threshold. Then advancing he fired twice more, after which, jumping behind and under the governor's writing table, with his pistol he held up the clerks who were rushing in and managed to reach the street. Secretary Markoff, who followed him, summoned assistance and the would-be assassin was captured.

Reinikka, who had lost one of his arms recently in a railway accident, when asked if his name was Reinikka, replied:

"The police of Helsingfors know me, my motive and the governor's record."

The crime was committed with an automatic pistol of the same type as the one with which Hohenthal assassinated Soisalon Soininen, the procurator general of Finland, on Feb. 6.

THEIR POLICY OF TERRORISM.

Incident at Viborg Shows Revolutionists Have Not Abandoned It.

St. Petersburg, March 21.—Upon the quietude of the Manchurian situation there has burst the news of the attempted assassination of another high official in Finland, whose efforts for the Russification of the grand duchy have exposed them to the vengeance of the Young Fennomans. The incident indicates that the revolutionists have not abandoned the policy of terrorism but are determined to have more blood and presages further crimes of a like nature.

The authorities here are drawing up a programme of administrative reforms for Finland, with a view to re-establishing order and diminishing racial antagonisms.

ARTICLES OF INCORPORATION

Of The Brainerd Telephone Exchange Company.

KNOW ALL MEN BY THESE PRESENTS, that we, the undersigned, whose names are hereunto subscribed, do hereby associate ourselves together and agree to be and become a corporation, under and by virtue of title of chapter 34 of the general statutes of 1904 of the State of Minnesota, and all acts amendatory thereof and supplementary thereto, and to that end and for purpose, we, the undersigned, do hereby adopt and sign the following articles of incorporation, that is to say:

ARTICLE I.
The name of the corporation shall be "The Brainerd Telephone Exchange Company."

The general nature of the business of the corporation shall be:
The acquiring by purchase, lease or otherwise, constructing, maintaining, leasing, selling and operating local and long distance telephone and telegraph lines and telephone exchanges, and transmitting intelligence by electricity for all purposes, and in general doing a telephone and telegraph business.

The manufacturing, buying, selling, leasing and otherwise dealing in telephone and telegraph instruments and apparatus of every description, and acquiring, owning, leasing, holding, selling, or otherwise disposing of all such real estate as may be necessary or convenient, for the purpose aforesaid.

The principal place of transacting business of the corporation shall be in the City of Brainerd, in the County of Crow Wing and State of Minnesota.

ARTICLE II.
The term of the commencement of the corporation shall be the first day of April in the year of our Lord, One Thousand Nine Hundred and Five, and the period of its continuance shall be twenty (20) years.

ARTICLE III.
The amount of the capital stock of the corporation shall be FIFTY THOUSAND (\$50,000) DOLLARS, divided into Five Hundred (500) shares of one hundred (100) dollars each, which shall be paid in at all such times and in such manner as the board of directors shall require.

ARTICLE IV.
The highest amount of indebtedness or liability to which the corporation shall at any time be subject shall be the sum of TWENTY FIVE THOUSAND (\$25,000) DOLLARS.

ARTICLE V.
The names and places of residence of the persons forming the corporation are as follows, to-wit:

Charles A. Walker, Brainerd, Minnesota.
Werner Hemstead, Brainerd, Minnesota.
Fred H. Gruenhagen, Brainerd, Minnesota.
Henry P. Dunn, Brainerd, Minnesota.
Mons Mahlum, Brainerd, Minnesota.
H. D. Treglawny, Brainerd, Minnesota.

ARTICLE VI.

The government of the corporation and the management of its affairs shall be vested in a board of five (5) directors, who shall be stockholders of the corporation, and a majority of whom shall be residents of the State of Minnesota.

The members of the board of directors shall be elected at the annual meeting of the stockholders of the corporation, or at any adjournment thereof, for the term of one year, and until their successors are elected and qualified.

The first board of directors shall consist of: Charles A. Walker, Secretary, and Werner Hemstead, Henry P. Dunn, Fred H. Gruenhagen, H. D. Treglawny, all of Brainerd, Minnesota, and they shall hold office until the first annual meeting of the stockholders of the corporation, as provided for in this article, and their successors are elected and qualified.

The first annual meeting of the stockholders of the corporation shall be held at its office in the City of Brainerd, Minnesota, on Tuesday, April 1, A. D. 1906, at ten (10) o'clock in the forenoon thereof.

Thereafter the annual meeting of the stockholders of the corporation shall be held at its office in the City of Brainerd, Minnesota, on the second Tuesday in April in each year at the hour of ten (10) o'clock in the forenoon thereof.

The board of directors shall hold its first meeting for the year immediately after the annual stockholders' meeting, or immediately after the election of the directors at such annual meeting, or any adjournment thereof. At such first meeting the board of directors shall elect from its own number, a president, a vice-president, a secretary, and a treasurer, who shall constitute the officers of the corporation, and shall hold office for one (1) year, and until their successors have been elected and qualified. Any such officers may be held by the same person.

Any vacancy in the board of directors, or in any of said offices shall be filled by the board of directors for the unexpired term.

All other officers, agents and factors of the corporation shall be appointed in such manner and shall hold their offices for such terms as the board of directors may by resolution prescribe.

Until the first election of officers by the board of directors immediately following the first annual meeting of the stockholders of the corporation to be held in April, 1906, the officers of the corporation shall be as follows, to-wit:

Werner Hemstead shall be the president, Henry P. Dunn shall be the vice-president, H. D. Treglawny shall be the treasurer, and Charles A. Walker shall be the secretary.

ARTICLE VII.

The capital stock of the corporation shall be assignable and transferable upon the books of the corporation in accordance with its by-laws and not otherwise, and no stock issued to any stockholder shall be sold or transferred, or shall be assignable, until the corporation has first been given an opportunity to purchase the same, or have it purchased by such person or persons as its board of directors may approve or designate. In such manner and upon such terms as are prescribed by this article and by the by-laws and the corporation shall have the right to purchase, hold and dispose of its capital stock.

Any stockholder of this corporation who shall be desirous of selling any of his shares, the executor or administrator of any member, deceased, and the grantee or assignee of any shares sold on execution, or in liquidation, and also all persons holding less than ten (10) shares, when requested by the Board of Directors, shall cause such, their shares, respectively, to be appraised by the Board of Directors, which it shall be their duty to do on request, and shall thereupon offer the same to them for the use of the corporation at such appraised value, and if such directors shall choose to take such shares for the use of the corporation, or if they shall find and designate a purchaser satisfactory to such board, such stockholder, executor, administrator or assignee shall, upon the payment or tender to him of such appraised value, transfer and assign such shares to the corporation; and if such satisfactory purchaser as the board shall find and designate:

Provided, however, that the said directors shall not be obliged to take such shares at the appraised value, unless they shall think it for the interest of the company; nor find a purchaser as hereinbefore provided, and if they shall not within ten days after such appraisal, or if they shall find a purchaser and pay or cause to be paid the price at which the same shall have been appraised, such stockholder shall be at liberty to sell the same to any person he sees fit.

The directors shall have power and it shall be their duty, to sell and dispose of the shares which relate to the stockholder, executor, administrator, or assignee in their judgment it can be done with safety and advantage to the corporation, and in all such sales made by the directors it shall be their duty to sell the shares to such persons as shall appear to them, from their situation and character, most likely to promote confidence in the stability of the corporation.

It shall be the duty of each executor, administrator, assignee or person holding less than ten (10) shares to offer his or their shares for appraisal, and to be taken by the corporation, if it shall so elect, or to be sold to a person by the board designated, whenever requested by the board of directors and no dividends or interest shall be paid or allowed after a failure to comply with such request.

The provisions of this article and a reference to all provisions of the by-laws of the corporation which relate to the purchase, sale and transfer of stock shall be printed on the back and be a part of all certificates of stock issued by the corporation, and no stock of the corporation shall be issued or sold unless, as a part of the consideration, therefor the owner or purchaser thereof shall expressly assent in writing upon the stock certificate to this article and the provisions of the by-laws, and shall also receipt in writing for such certificate upon the books of the corporation, and in such receipt shall expressly assent to all the provisions and restrictions re-

ferred to in such certificate and made a part thereof, as aforesaid.

In witness whereof, we, the undersigned, have hereunto set our hands and seals, this 16th day of March, in the year of our Lord one thousand nine hundred and five.

Paine's Celery Compound Makes Nerve Force

Nerve Force rules the world. Health—the satisfaction of living—is the right of every man and woman born into the world.

Health is a question of keeping all the organs of the body working together in fine, smooth, harmony.

The force that rules them all—that makes them work as nature meant and makes them keep in harmony—is Nerve Force.

Without Nerve Force there can be no health at all—no success—no joy in living.

The center of life is in the nerves. The real root of health or sickness is found in the condition of the nerves.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,—tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It makes new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it makes the brain clear and vigorous.

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

This is the work of Paine's Celery Compound. It is the most celebrated nerve vitalizer and tonic in the world.

We give the testimony of many individual cases, simply that you may know their experience in their own words.

"I am a man of more than 60 years, and for the past 20 years I was a great sufferer with acute stomach trouble and rheumatism. I tried a number of specialists, but their efforts were unavailing and I felt as though life was not worth living, and I had given up all hope of being a well man again. My wife, who also had stomach trouble, at the suggestion of a friend, tried two bottles of Paine's Celery Compound and was fully restored to health. She then encouraged me to try the same medicine; I did so, and now I am a sound and well man, able to work every day. I bless my good wife every day for my good health, as she got me to take Paine's Celery Compound, in my opinion the greatest medicine ever given to the world for nervousness, stomach trouble, rheumatism and kindred ailments. Yours very truly,"—Martin Baldwin, 610 North 10th St., St. Joseph, Mo. Feb. 25, 1904.

Doctors know and value this prescription and make constant use of it in their practice.

Its effect is almost instantaneous—the nourishment and vigor given to the nerve system by Paine's Celery Compound is felt at once.

The patient feels this at once and gains confidence by it.

The Nerve Force begins at once to make each organ of the body do the work that nature expects of it.

Two days' treatment with Paine's Celery Compound will prove its marvelous power.

Remember this,—Paine's Celery Compound is the prescription of one of the most famous physicians this country has ever known, Prof. E. E. Phelps, of Dartmouth University, and all reputable druggists sell and recommend it.

PEACE NEGOTIATIONS

MAY BE INFLUENCED BY DECISION OF RUSSIA TO CARRY ON THE CONFLICT.

FORCES STILL RETREATING

RUSSIAN RETIREMENT TO HARBIN IS BEING CONDUCTED UNEVENTFULLY.

St. Petersburg, March 21.—The council of war met during the day with General Dragomiroff in the chair. It was decided to continue the campaign and to order a new mobilization. According to trustworthy information, the decision was based rather on diplomatic than on military considerations; that is to say, it was preparatory to negotiations for peace rather than a continuation of the war.

FORCES IN RETREAT

RUSSIANS CONDUCTING AN UNEVENTFUL RETIREMENT TO THE NORTH.

St. Petersburg, March 21.—The latest dispatches from Manchuria indicate that the retreat of the Russian army is being conducted uneventfully. The past few days were unmarked by any fighting of a serious nature. Both the Russians and the Japanese at this stage are probably considering that marching is more important than fighting. The Russians, however, are neglecting no precaution to impede pursuit and hamper the construction of permanent Japanese lines of supply.

A dispatch received Monday announcing that a cannonade had been heard south of Tie pass is apparently an error either as to direction or location. M. Tuluzaikov, an Associated Press correspondent who had been accompanying General Rennenkampf's corps of the Eastern army, and whose dispatches suddenly ceased with the beginning of the retreat, has arrived at Gunshu pass, having been wounded in the early stage of the retirement.

According to an Associated Press dispatch from Gunshu pass the appointment of General Linevitch has made a good impression with the army, the new commander enjoying the affection and confidence of the troops almost in the same measure as General Kuropatkin. Both are fighters and not carpet knaves.

UTTERLY WITHOUT INCIDENT.

Russian Retreat Unmarked by Any Great Event.

Gunshu Pass, March 21.—The past few days have been utterly without incident except for the removal of the censor to Kudzhub pass. The Russian rear guard is retreating slowly and engaging in occasional skirmishes. It has now reached a position twenty-seven miles north of Tie pass. The Japanese are slowly advancing, without pressing the Russians. In the course of the retreat the Russians are destroying bridges, the railway roadbed and highways and carrying off stores and demolishing buildings and everything not portable. Reports of a wide turning movement by the Japanese are no longer being received.

There is increasing difficulty in securing reliable information beyond the limits within which scouting parties

are active, on account of the defection of many Chinese to the Japanese side. Many natives who have been employed as servants by Russian officers have run away, and other consequences of the evacuation of Mukden are noticeable in the attitude of the Chinese.

The troops parted in sadness with General Kuropatkin, whose labors in shaping the army are recognized and who was ever attentive to the wants of the soldiers in the matter of food, clothing and shelter. Regardless of the fact that he had been commander-in-chief, General Kuropatkin offered to remain here as a subordinate of General Linevitch, and as commander of a corps.

General Linevitch, who also enjoys the respect and confidence of the troops as a fighter, is determined to initiate reform by weeding out the overloaded staff and other administrative departments, and is taking other steps which, it is believed, will result in economy as well as increasing the efficiency of the army.

JAPS OCCUPY KAIYUAN.

Russian Attempt to Retake Position Is Frustrated.

Tokio, March 21.—The following official announcement has been made:

"Our detachment entered and occupied Kaiyuan Sunday morning at 4 o'clock. On the same day, at 10:30 o'clock, the enemy's cavalry, about sixty strong, with three companies of infantry, attempted a counter attack, but was completely repulsed. Toward the northeast the bridges on the main road south of Kaiyuan have been burned by the enemy. The railway bridges have been partly destroyed. "The number of guns captured near Mukden is increasing, owing to discoveries of those buried by the enemy before retreating."

ARTICLE VI.

The government of the corporation and the management of its affairs shall be vested in a board of five (5) directors, who shall be stockholders of the corporation, and a majority of whom shall be residents of the State of Minnesota.

The members of the board of directors shall be elected at the annual meeting of the stockholders of the corporation, or at any adjournment thereof, for the term of one (1) year, and until their successors are elected and qualified.

The first board of directors shall consist of: Charles A. Walker, Werner Hemstead, Henry P. Dunn, Fred H. Gruenhagen, H. D. Tregilway, all of Brainerd, Minnesota, and they shall hold office until the first annual meeting of the stockholders of the corporation, or until their successors are elected and qualified.

The first annual meeting of the stockholders of the corporation shall be held at its office in the City of Brainerd, Minnesota, on Tuesday, April 1st, A. D. 1906, at ten (10) o'clock in the forenoon thereof. Thereafter the annual meeting of the stockholders of the corporation shall be held at its office in the City of Brainerd, Minnesota, on the second Tuesday in April in each year at the hour of ten (10) o'clock in the forenoon thereof.

The board of directors shall hold its first meeting for the year immediately upon the annual stockholders' meeting, or immediately after the election of the directors at such annual meeting, or any adjournment thereof. At such first meeting the board of directors shall elect from its own number, a president, a vice-president, a secretary and a treasurer, who shall constitute the officers of the corporation, and shall hold office for one (1) year, and until their successors have been elected and qualified. Any two of said officers may be held by the same person.

Any vacancy in the board of directors, or in any of said offices shall be filled by the board of directors for the unexpired term. All other officers, agents and factors of the corporation shall be appointed in such manner and shall hold their offices for such terms as the board of directors may by resolution prescribe.

The first election of officers by the board of directors immediately following the first annual meeting of the stockholders of the corporation to be held in April, 1906, the officers of the corporation shall be as follows, to-wit:

Werner Hemstead shall be the president, Henry P. Dunn shall be the vice-president, H. D. Tregilway shall be the treasurer, and Charles A. Walker shall be the secretary.

ARTICLE VII.

The capital stock of the corporation shall be assignable and transferable upon the books of the corporation in accordance with its by-laws and not otherwise, and no stock issued to any stockholder shall be sold or transferred, or shall be assignable, until the corporation has first been given an opportunity to purchase the same, or have it purchased by such person or persons as its board of directors may approve or designate in such manner and upon such terms as are prescribed by this article and by the by-laws, and the corporation shall have the right to purchase, hold and dispose of its capital stock.

Any stockholder of this corporation who shall be desirous of selling any of his shares, the executor or administrator of his estate, or his heirs, devisees, or assigns, or any other person, shall be deemed to have authorized the board of directors, or any committee thereof, to sell, assign, or otherwise dispose of such shares, and to execute all necessary documents in connection with the sale, assignment, or other disposition of such shares, and to execute all necessary documents in connection with the sale, assignment, or other disposition of such shares, and to execute all necessary documents in connection with the sale, assignment, or other disposition of such shares.

Provided, however, that the said directors shall not be obliged to take such shares at the appraised value, unless they shall think it for the interest of the company; nor find a purchaser as herebefore provided, and if they shall not within ten days after such shares are offered to them in writing, take the same or find a purchaser, therefor and pay or cause to be paid the price at which the same shall have been appraised, such stockholder shall be at liberty to sell the same to any person he sees fit.

The directors shall have power and it shall be their duty, to sell and dispose of the shares which may be transferred, as aforesaid to the corporation, whenever in their judgment it can be done with safety and advantage to the corporation, and in all such sales made by the directors it shall be their duty to sell the shares to such persons as shall appear to them, from their situation and character, most likely to promote confidence in the stability of the corporation.

It shall be the duty of each executor, administrator, assignee or person holding less than ten (10) shares to offer his or their shares for appraisal, and to be taken by the corporation, if it shall so elect, or to be sold to a person by the board designated, or otherwise requested by the board of directors and no dividends or interest shall be paid or allowed after a failure to comply with such request. The provisions of this article and a reference to all provisions of the by-laws of the corporation which relate to the purchase, sale and transfer of stock shall be printed on the back and be a part of all certificates of stock issued by the corporation, and no stock of the corporation shall be issued or sold unless, as a part of the consideration therefor, the owner or purchaser thereof shall expressly assent in writing upon the stock certificate to this article and said provisions of the by-laws, and shall also receipt in writing for such certificate upon the books of the corporation, and in such receipt shall expressly assent to all the provisions and restrictions re-

ferred to in such certificate and made a part thereof, as aforesaid.

In witness whereof, we, the undersigned, have hereunto set our hands and seals, in triplicate, at Brainerd, Minnesota, this 16th day of March, in the year of our Lord one thousand nine hundred and five.
